

PROGRAMME BROCHURE

China Quest

Structured International Learning Programme

A structured educational journey through China for schools seeking cultural depth, real-world learning, and meaningful student outcomes.

Ages 14–18

TY Compatible

Modular Design

A Structured Learning Journey, Not Just a Study Trip

China Quest helps students explore China through culture, technology, and real-world experience — with reflection, discussion, and meaningful outcomes built in.

Evidence-Based Learning

Students investigate real places and social dynamics through guided observation, discussion, and reflection.

Their insights can be documented through journals and portfolio-style outputs that support TY learning.

Critical Thinking

Independent Research

Reflection

Authentic Cultural Immersion

Students encounter China not only through landmarks, but through neighbourhoods, daily life, and meaningful human interaction.

The aim is to develop cultural understanding, empathy, and learning beyond the tourist gaze.

Cultural Intelligence

Interpersonal Skills

Global Awareness

Next-Gen Innovation

Students explore the technologies shaping modern China through first-hand exposure to robotics, AI, mobility, and innovation ecosystems.

These experiences connect academic interests with future pathways and real-world change.

STEM Readiness

Career Exploration

Sustainable Thinking

"纸上得来终觉浅，绝知此事要躬行。"

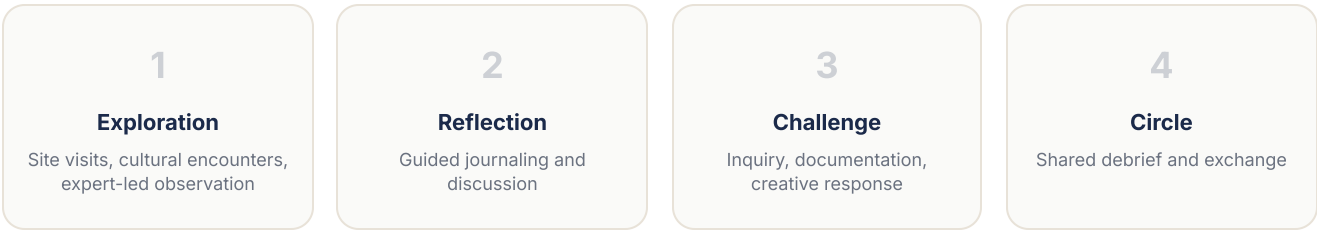

True understanding comes from direct experience. — 陆游（南宋）

How the Learning Journey Works

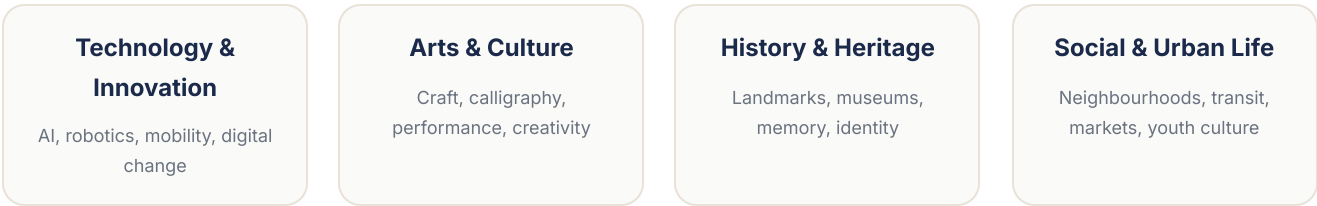

Each day combines exploration, reflection, challenge, and discussion — so students do more than visit places; they learn through them.

Daily Learning Cycle

Repeated daily, deepened over time.

Learning Pillars

Designed with TY and School-Led Learning in Mind

Structured tasks can support reflection journals, creative outputs, and portfolio-style evidence. Schools are welcome to nominate a teacher to accompany the group, strengthening continuity, shared reflection, and alignment with school values.

Four Core Modules Across Modern China

Each city module offers a distinct lens on China — from historical roots and cultural exchange to innovation, sustainability, and global perspective.

Core city modules are typically 5 days and can be combined into longer programmes tailored to your school.

Beijing

Roots, Identity, and Living Heritage

Great Wall, imperial landmarks, and the continuity of Chinese civilisation

Hutong observation, calligraphy, and everyday cultural practice

A module focused on how history, memory, and identity shape modern China

Shanghai

Global Interface, Exchange, and Modern Chinese Identity

The Bund, Pudong, and the story of urban transformation

School exchange, peer dialogue, and neighbourhood discovery

A module focused on global connection, cultural fusion, and city life in contemporary China

Shenzhen

Future Ecosystems, Innovation, and STEM Exploration

Technology ecosystems, robotics, and hands-on innovation exposure

Smart mobility, urban change, and future city systems

A module focused on how design, making, and innovation shape the world students are growing into

Hong Kong

Capstone Perspective, Sustainability, and Global Outlook

Harbour, density, and East–West urban histories

Field-based sustainability learning and local community observation

A module focused on comparison, reflection, and bringing the wider journey into sharper perspective

Additional city modules (Hangzhou, Chengdu, Xi'an) available on request.

STUDENT OUTCOMES

What Students Gain

Students return with more than memories — they gain confidence, perspective, and evidence of meaningful learning.

Tangible Learning Evidence

Documented observations, reflective journals, creative outputs, and a certificate of completion that can support TY portfolio work.

Global Fluency & Core Competencies

Adaptability, communication, collaboration, and critical thinking — built through teamwork, reflection, and cross-cultural engagement.

Career & Future Pathways

First-hand insight into innovation, cultural institutions, and university settings that connect academic interests with future possibilities.

Reflection Journals · Creative Outputs · TY Portfolio Evidence · Certificate of Completion

SAFETY & SCHOOL SUPPORT

Supporting Student Wellbeing at Every Stage

China Quest is designed to support student wellbeing, clear supervision, and practical collaboration with schools.

Clear Supervision

Experienced bilingual leaders with structured daily coordination throughout.

Risk-Aware Planning

Route planning, activity review, emergency procedures, and communication protocols.

School-Facing Support

Schools can nominate a teacher to accompany the group for continuity and pastoral care.

Student Wellbeing

Accommodation, transport, meals, insurance, and medical access built into planning.

FREQUENTLY ASKED QUESTIONS

What ages is China Quest suitable for?

China Quest is designed for students aged 14–18, with content, supervision, and activities tailored to this age group.

How long are the programmes?

Programmes are built from city-based learning modules. Core modules are typically 5 days and can be combined into longer programmes.

Is China safe for student groups?

Yes. Programmes include experienced bilingual leaders, a 1:8 leader-to-student ratio, defined emergency procedures, and international travel and health insurance.

Can schools customise the itinerary?

Yes. Schools can select and combine modules, adjust programme length, and discuss specific themes or priorities.

Is the programme Transition Year compatible?

Yes. China Quest includes reflection tasks, portfolio-style outputs, and opportunities for collaboration, autonomy, and critical thinking.

Do students need to speak Chinese?

No. All programme leaders are bilingual and activities are delivered in English.

What is included in the programme fee?

Accommodation, meals, domestic transport, entry fees, activities, insurance, learning materials, and 24/7 support. International flights, visa fees, and personal spending are not included.
